*Certified Legal Video Specialists* 

**Digital Video Depositions**

Depositions are conducted by professionally attired Legal Video Specialists following the Federal Rules of Civil Procedure. Our stall is certified using the National Court Reporter Association (NCRA) Standards for Certified Legal Video Specialists (CLVS).

Digital recording produces a superior, more effective video. Individual lavalier microphones with a professional mic mixer ensure quality audio. A portable backdrop eliminates distracting backgrounds and provides a neutral setting when required. Continuous date/time/seconds is imprinted on the video. DVD orders include a back-up VHS at no additional charge.

Bottom line - the most professional people and best equipment guarantee you'll have no worries on each and every video deposition.
